24 MAR 1982

MEMORANDUM FOR: Chairman
Committee on Imagery Requirements and Exploitation

FROM: [REDACTED] 25X1
Security Consultant

SUBJECT: Security Consultant to COMIREX

1. As has been discussed with you informally, [REDACTED] 25X1
[REDACTED] will become the Security Consultant to COMIREX with my 25X1
retirement 28 May 1982 from the Central Intelligence Agency.

2. [REDACTED] comes with good credentials. He is well 25X1
acquainted with the activities of the Intelligence Community.
He has served as Secretary to the DCI Security Committee and
is the present CIA representative to its Compartmentation Sub-
committee. He had a tour as the Security Advisor to Office of
the Secretary of the Air Force, Space Systems. Currently, as
Chief of the Special Security Center, CIA, he is the Agency SSO
for two of the DCI's principal special compartmented information
programs. He is the responsible officer for bringing the
Community-wide, Computer assisted Compartmented Control system
(4C) into full operational capability.

3. It is the desire of the Director of Security that I
begin phasing out of COMIREX activities while [REDACTED] phases 25X1
in prior to my retirement date. I have some long-range planning
assignments to complete for him before I leave. May I extend,
therefore, my best wishes to you and the COMIREX in the face of
what lies ahead in the mid-1980's. It was my pleasure to afford
you and the Committee whatever advice and guidance I could on
security matters.

4. Since the Special Security Center and the 4C system is
in the process of being moved back into the Langley Headquarters
Building, COMIREX communications should continue to be routed to
